Using Artifact Uprising

As a photographer and a stay-at-home mom, I'm always thinking about my home. I think about how to organize and keep it, but what I really think about is what makes someone feel "at home." Home should be a place of rest and peace. Unfortunately, not all homes are like that, but as a curator of my home, I want my people to feel at ease as soon as they walk through the door. One of the easiest ways I can do that is to display my family's pictures throughout our house. Each day they should see a reminder of the people they love most. That is why I'm so passionate about printing pictures and creating albums. I want to create a tangible reminder for your people and your home. It is such an honor to create something that can be passed down as an heirloom to future generations. No matter which album package you choose, I know you won't regret it.

The Process

After your photos are finished and uploaded to the online gallery, I will send an email explaining how to choose your favorite images, and discuss the design options for your album! I'll then work on designing each layout. After it is finished, it will be mailed straight to your address.
